Kaiser Seat 6C Santa Clara Clinics

I am running for Executive Board because I believe in our Union and what it represents. My coworkers trust that I will always steer them in the right direction providing them with the most up to date and accurate information. I continue to be committed to provide excellent representation for our members, assist with healthcare justice and political involvement. Healthcare justice means everyone should be treated equal and be given the opportunity to receive the most affordable and accessible healthcare.

Sincerely,

Deanne Nicolaysen
