

Hello Fellow SEIU-UHW Members, I am asking for your vote for Felecia Ledet. I am a 30-year Kaiser employee. I began in Telecommunications as an operator. I worked 21 years in that department. Ten years ago, I transferred to California Claims Administration to work as a Claims Adjudicator. I successfully bargained for reclassification of the claims clerks gaining us a pay raiser, backpay and three new job titles. I served on the National Labor Engagement Steering Committee for KP Claims Connect, and served on three sub committees: Training, Change Management and Workforce Planning. I jointly plan with management and upper leadership to report communications to the members. I was involved in Labor engagement with: ICD-9/ ICD-10 wrapper report project.

I also was a part of bargaining team that fought to make sure we keep our Wage increases, retirement benefits, outsourcing, affordable health care, opportunities for career growth, workforce development fund and no more work experience requirements for SEIU-UHW members seeking promotion to a new position in Kaiser.

As a mother of three children on my Kaiser plan and an employee that will retire with Kaiser, you can be assured that I will fight for us to maintain our affordability and of quality Health Care.
